Type of Diabetes: 1 2 (circle one) Year of Diabetes Diagnosis: _____

*This tool is based on the 2009 American Diabetes Association's "Standards of Medical Care for Patients with Diabetes Mellitus" and indicates minimum services to be provided in the continuing (initial visits have additional components) care of **adults** with diabetes. It is not intended to replace or preclude clinical judgement or more intensive management where medically indicated. Use it as a reminder for exams or important tests, to simplify record keeping and as a way to continually improve care to all patients with diabetes.*
